Global Ecology and Biogeography Letters

Volume 6 Number 1 January 1997

Mountain Ecology: organism responses to environmental change

3 JOHN R. HASLETT: Mountain ecology: organism responses to environmental change, an introduction

7 DAVID L. PETERSON, EDWARD G. SCHREINER and NELSA M. BUCKINGHAM: Gradients, vegetation and climate: spatial and temporal dynamics in the Olympic Mountains, U.S.A.

19 ANDREAS FISCHLIN and DIMITRIOS GYALISTRAS: Assessing impacts of climatic change on forests in the Alps

39 CAROL L. BOGGS and DENNIS D. MURPHY: Community composition in mountain ecosystems: climatic determinants of montane butterfly distributions

49 JOHN R. HASLETT: Insect communities and the spatial complexity of mountain habitats

57 MARK V. LOMOLINO and RUSSELL DAVIS: Biogeographic scale and biodiversity of mountain forest mammals of western North America

77 MARTIN F. PRICE and MICHAEL THOMSON: The complex life: human land uses in mountain ecosystems

Volume 6 Number 2 March 1997

Ecological Sounding

91 LYUBOMIR PENEV: Concrete biotas—a neglected concept in biogeography?

Research Articles

97 CHARLES W. HECKMAN: Ecoclimatological survey of the wetland biota in the tropical wet-and-dry climatic zone

115 GUADALUPE WILLIAMS-LINERA: Phenology of deciduous and broadleaved-evergreen tree species in a Mexican tropical lower montane forest

Research Letters

129 SERGE MULLER: The post-glacial history of *Pulsatilla vernalis* and *Daphne cneorum* in Bitcherland, inferred from the phytosociological study of their current habitat

139 ALLEN M. SOLOMON and ANDREW P. KIRILENKO: Climate change and terrestial biomass: what if trees do not migrate?

149 François Vuilleumier: How many bird species inhabitat the puna desert of the high Andes of South America?

Library Letters

155 Library Letters

Volume 6 Numbers 3 & 4 May/July 1997

Floodplain forests: structure, functioning and management

Hydrology, geomorphology and biodiversity

169 A. G. Brown, D. Harper and G. F. Peterken: European floodplain forests: structure, functioning and management

179 A. G. Brown: Biogeomorphology and diversity in multiple-channel river systems

187 Hervé Piégay: Interactions between floodplain forests and overbank flows: data from three piedmont rivers of southeastern France

197 Hans Neumeister, Annett Krüger and Birgit Schneider: Problems associated with the artificial flooding of floodplain forests in an industrial region in Germany

211 José-Miguel Sánchez-Pérez and Michèle Trémolières: Variation in nutrient levels of the groundwater in The Upper Rhine alluvial forests as a consequence of hydrological regime and soil texture

219 Angela Gurnell: The hydrological and geomorphological significance of forested floodplains

Botanical indicators and floodplain forest structure

231 Nobert Luschka: Macrofungi in Central German floodplain forests

237 Béatrice Werffeli, Christian Roulier and Alexandre Buttler: The methodology of integrated synusial phytosociology applied to a floodplain sector of the Sarine River, Switzerland

247 Francine M. R. Hughes, Tim Harris, Keith Richards, Guy Pautou, Ahmed El Hames, Nadia Barsoum, Jacqui Girel, Jean-Luc Peiry and Remi Foussadier: Woody riparian species response to different soil moisture conditions: laboratory experiments on *Alnus incana* (L.) Moench

257 J.-P. Klein and A. Vanderpoorten: Bryophytic vegetation in riparian forests: their use in the ecological assessment of the connectivity between the Rhine and its floodplain (Alsace, France)

267 Fabienne Robach, Isabelle Eglin and Michele Trémolières: Species richness of aquatic macrophytes in former channels connected to a river: a comparison between two fluvial hydrosystems differing in their regime and regulation

275 David Harper, Jarka Mekotova, Sarah Hulme, Jonathan White and Jacky Hall: Habitat heterogeneity and aquatic invertebrate diversity in floodplain forests

Status and management of floodplain forests

287 R. J. A. M. Wolf, J. G. Vrielink and R. W. de Waal: Riverine woodlands in The Netherlands

297 David Harper, Francis Witkowski, Debbie Kemp-McCarthy and Jacky Crabb: The distribution and abundance of riparian trees in English lowland forests

307 Vlastimil Kostan and Jirí Lehký: The Litovelské Pomoraví floodplain forest as a habitat for the reintroduction of the European beaver (*Castor fiber*) into the Czech Republic

311 Guy Pautou, Jean-Luc Peiry, Jacky Griel, Elodie Blanchard, Francine Hughes, Keith Richards, Tim Harris and Ahmed El-Hames: Space-time units in floodplains: the example of the Drac River upstream of Grenoble (French Alps)

321 Klement Tockner and Fritz Schiemer: Ecological aspects of the restoration strategy for a river-floodplain system on the Danube River in Austria

331 O. Sterba, J. Mekotova, M. Krskova, P. Samsonova and D. Harper: Floodplain forests and river restoration

339 M. L. Medonça Santos, C. Guenat, C. Thevoz, F. Bureau and J.-C. Vedy: Impacts of embanking on the soil-vegetation relationships in a floodplain ecosystem of a pre-alpine river

Volume 6 Number 5 September 1997

Research Article

349 A. Galan de Mera, J. A. Vicente Orellana, J. A. Lucas Garcia and A. Probanza Lobo: Phytogeographical sectoring of the Peruvian coast

Research Letters

369 Martin Claussen and Veronika Gayler: The greening of the Sahara during the mid-Holocene: results of an interactive atmosphere-biome model

379 Martin Fisher: Decline in the juniper woodlands of Raydah Reserve in southwestern Saudi Arabia: a response to climate changes?

387 Marcelo T. Nascimento and John Proctor: Soil and plant changes across a monodominant rain forest boundary on Maracá Island, Roraima, Brazil

397 Hervé Piégay and Pierre-Gil Salvador: Contemporary floodplain forest evolution along the middle Ubaye River, Southern Alps, France

Library Letters

407 Library Letters

Volume 6 Number 6 November 1997

Ecological Sounding

413 F. IAN WOODWARD and DAVID J. BEERLING: The dynamics of vegetation change: health warnings for equilibrium 'dodo' models

Research Letters

419 ANNIKA HOFGAARD: Inter-relationships between treeline position, species diversity, land use and climate change in the central Scandes Mountains of Norway

431 J. L. READ: Stranded on desert islands? Factors shaping animal populations in Lake Eyre South

439 D. J. BEERLING, F. I. WOODWARD, M. LOMAS and A. J. JENKINS: Testing the responses of a dynamic global vegetation model to environmental change: a comparison of observations and predictions

Library Letters

451 Library Letters
